

January 15, 1992

TO: All Mineral Mine Operators
FROM: Division of Oil, Gas and Mining *DGH*
RE: Rule Number Change

The State of Utah, Division of Administrative Rules, has amended the 1992 Administrative Code by changing the *prefix number* on the rules for most state agencies.

The changes went into effect January 1, 1992. The old prefix number for the Division of Oil, Gas and Mining's (non-coal) minerals reclamation rules was R613. The new prefix number is **R647**. The *prefix of the rule number* is the only thing that has changed. The sections and subsections of the rule numbers have not been affected. The language and content of the rules have not been changed.

The 1992 edition of the Administrative Rules will be available on February 14th to the state agencies. Should you desire an updated copy of the rules with the new prefix number, please contact us and we will forward a copy to you after we receive them.
